## Profile

I'm a Frontend developer with expertise in front-end technologies, including HTML, CSS, and JavaScript, and a strong focus on React JS. I can create responsive, user-friendly websites that deliver a seamless experience across all devices. Eager to collaborate, with a solid foundation in front-end technologies and ready to contribute effectively to software development projects.

## PROJECTS

### My Portfolio Link

Live: portfolio

github:<https://github.com/Iqra562/portfolio-v2.git>

Tech stack : HTML/CSS, JS, React Js, MUI

### Blog Portal

Live: <https://blog-portal-react-js.vercel.app/login>

github:<https://github.com/Iqra562/BlogPortal-ReactJS>

It's a simple website where user can search a blog and its author name. In admin panel admin can add post by category with basic info. This project used API for all blog posts crud operation.

Tech stack : HTML/CSS, JS, React JS, Ant Design, React Query, Api Sauce, Rest Api's
